All ConnectedTech products connect with popular navigation software such as Waze, Google Maps, and more to keep motorists informed of upcoming hazards and traffic changes.

Welcome to ConnectedTech™ by iCone

Turn on your connected device and immediately alert approaching traffic to *slow down, workers on the road.*

Messages directly to the approaching drivers
via in car navigation systems

i-Cone ConnectedTech can operate on any equipment on site to push out alerts for the duration of works.
Keeping workers and drivers safer.
